## Abstract

In a fast-changing and technologically evolving world, nations and continents are searching for new landmarks.

This evolution is greatly characterized by the global adoption of cryptocurrencies and the Blockchain Technology as the foundation of a new world full of hope and new opportunities accessible to all... A freer world, a fairer world!

The **LIMOCOIN SWAP** is a **STRONG** response from Africa to this global revolution.

As a pioneer and leader of the decentralized finance sector in Africa, the **LIMOCOIN SWAP** project has the heavy mission to accompany all actors in all business sectors of this new universe.

This gigantic project is made possible thanks to a robust ecosystem and moreover thanks to the determination of a community of over 300,000 members in 127 countries worldwide (Dec. 2021), which has been built over time since November 2017.

The **LIMOCOIN SWAP** is therefore the great gateway for Africa into the world of cryptocurrency and Blockchain and provides the following solutions:

- **Education** : *Massive education of the population in understanding and adopting cryptocurrencies.*
- **Economy** : *Merchant networks accepting cryptocurrency as a means of payment and transfer in Africa and worldwide.*
- **Technology** : *Development and provision of simple cryptographic tools to populations and governments adapted to the African context.*
- **Community** : *Charities, Federation of Africa, Africans and friends of Africa all over the world around an innovative project full of opportunities.*

## *Background*

Africa has a highly enshrined complex, very rich and distant history although dotted with several dark periods. Restoring the greatness and dignity of Africa has therefore become the life mission of a significant portion of today's African youth. It is in this context that the LIMOCOIN SWAP project was born in late 2017.

Initially named *LIYEPLIMAL* ("Poverty is over" in an African language), this project aims to eradicate poverty in Africa by creating 1,000,000 crypto millionaires. This is being made possible through an innovative and simplified investment model allowing any citizen of the world to indirectly benefit from the advantages of cryptocurrency.

Four years after its inception, the project has been a success beyond all expectations with over 300,000 memberships in the LIYEPLIMAL program in over 127 countries. The highlight occurred in December 2021 when it was necessary to migrate from the LIYEPLIMAL 1.0 model to the LIPEPLIMAL 2.0 version with at its core, the birth of the LIMOCOIN SWAP, a full publicly traded cryptocurrency listed on international markets.

This important point in the evolution of the project was the beginning of direct contact of the LIYEPLIMAL community with the world of cryptocurrency. From now on, the whole world is within reach of Africa and Africans thanks to the LIMOCOIN which breaks and overcomes all geographical and monetary barriers... Thanks to the LIMOCOIN, Africans now have the same technological weapons as the rest of the world.

## *Vision & Mission*

### *Eradicating poverty in Africa by creating 1 million crypto millionaires*

The union of weak people has never produced strength... Only the union of strong people yields strength!

With this in mind, we have set ourselves the mission of forging an economically and mentally powerful community that will form the basis for effective and sustainable development in Africa, thanks to cryptocurrency and the Blockchain Technology.

## 2 The Project

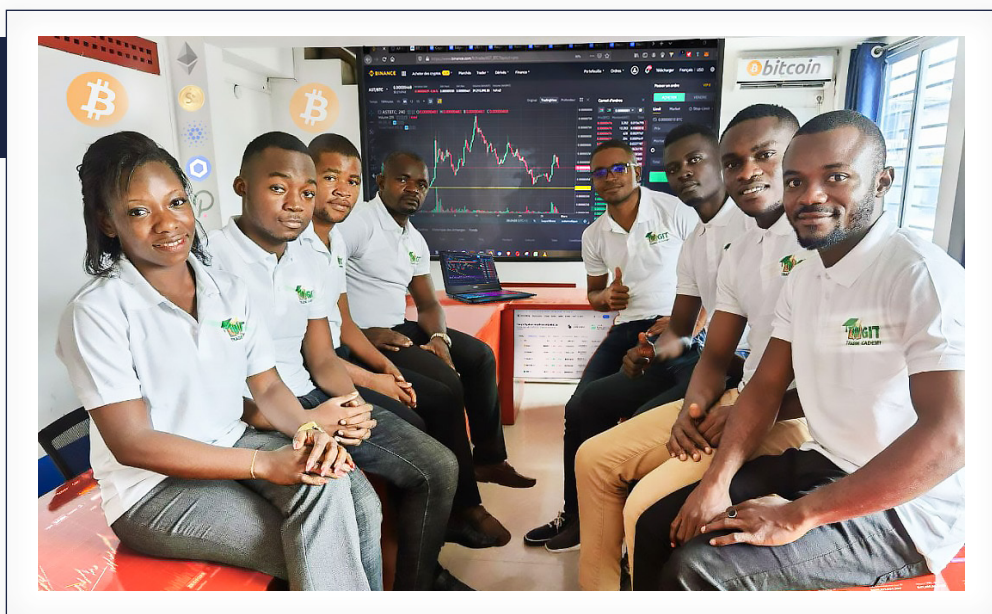

With a strong community of over 300,000 members in over 127 countries worldwide (Dec. 2021), the LIMOCOIN SWAP is one of the most promising cryptocurrencies in this industry. As proof, the LIMOCOIN SWAP has broken the world record for the number of transactions for a newly listed cryptocurrency, by crossing the 1 million marks in just 120 days of existence following its listing in December 2021.

This achievement was made possible thanks to an ingenious and finely crafted ecosystem, as well as a strong and dynamic community, both built during 4 years of a meticulously executed Initial Coin Offering (ICO) between 2017 and 2021.

As early as 2017 the founders of the project undertook initiatives with all relevant state agencies and authorities in Africa to assist and accompany with the regulation process and popularization of the cryptocurrency sector. There have been many efforts to inspire a real regulation of crypto assets, in order to guarantee and perpetuate this activity in Africa, as other precursor countries do.

It took tremendous efforts up until 2022 to see the first concrete results of these actions, with the adoption in Central Africa of a legal framework as the foundation for the regulation of crypto assets.

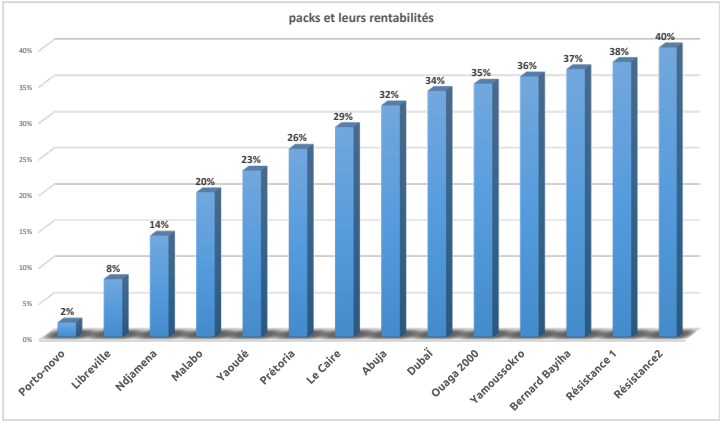

Further in this pioneering role the Trading Academy of Global Investment Trading (GIT), one of the 23 companies of the SIMB GROUP has already successfully trained several thousand young Africans since 2017, in the understanding and use of cryptocurrencies and the blockchain Technology.

All these actions are supported by a vast campaign of popularization of the LIMOCOIN SWAP as a means of payment for goods and services in Africa and the rest of the world; an initiative crowned with success thanks to the participation of several thousand merchants and kiosks on the 5 continents.

Moreover, a stacking program allows any holder to benefit from the LIMOCOIN SWAP as an investment tool by participating in a stacking scheme on the LIYEPLIMAL platform with an annual profitability rate from 2% to 40%.

All of this is topped off by a super active and resilient community that carries out various activities and initiates several projects, all in favor of the big vision of eradicating poverty in Africa.

Therefore, everything is in place to make sure that this pioneering project will significantly impact the cryptocurrency and blockchain landscape in Africa and thus model this landscape in a way that enables a massive and organized adhesion of the populations, especially the youth. Education and sharing remain the watchwords !

## Token

Token: LIMOCOIN SWAP

Symbol: LMCSWAP

Adress : <https://bscscan.com/token/0x383094a91ef2767eed2b063ea40465670bf1c83f>  
<https://etherscan.io/token/0xD1db8C87Ffdc0A1B624ECa53944c3061CfbaBA5>

BlockChain: BEP20 & ERC20

Total Supply: 3,650,000,000 LMCSWAP :

- 1,650,000,000 LMCSWAP on BEP20
- 2,000,000,000 LMCSWAP on ERC20

Initial Value : USD 1

## Ecosystem

The LIMOCOIN SWAP is directly supported by the 23 companies of the SIMB GROUP and indirectly by thousands of other companies and partners that make up the LIMOCOIN MERCHANT / KIOSK network.

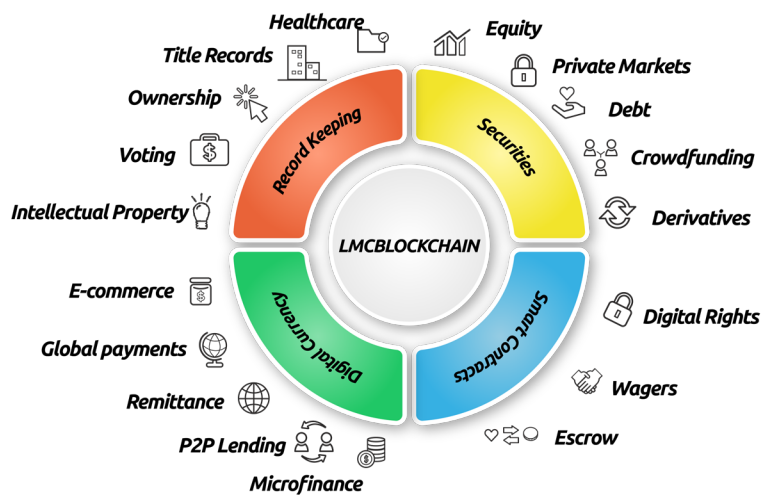

Its community remains very active and resilient by carrying out important activities on a daily basis, thus consolidating the LIMOCOIN SWAP ecosystem.

# 5 Use Cases

## LMC20 Blockchain

The LMC BLOCKCHAIN opens the doors to many use cases in the governmental, environmental and civil sectors.

## Goods & Services in LIMOCOIN

As a means of payment and transfer, the LIMOCOIN SWAP gives all Africans free access to the financial markets of the world... And this without any condition! Everyone is simply entitled to it!

To say it bluntly, Cryptocurrency makes sure that an African has the same chances of getting rich as the Chinese, the Russian, the German, the American, and all the other nationalities of the world!

Cryptocurrency as a means of payment is simply financial freedom for all... as long as one learns how it works.

## Staking

Staking packages are strategically designed to create scarcity in the market over the long term, with a net annual Rate of Return of 2% to 40%.

## ***Acknowledgements***

The LIMOCOIN SWAP project is the proof that a well-organized community can achieve everything! Even when hope seems lost.

The project team would therefore like to extend a BIG THANK YOU to the entire LIMOCOIN community for their unconditional support since the beginning of this project in 2017. All this was only possible because of your commitment and unconditional dedication to the success of this noble project

Let's stay as tightly knit as ever and continue to move forward hand in hand with LIMOCOIN, for a Strong and Dynamic Africa.

Long live Cryptocurrency, Long live LIMOCOIN, Long live Africa!
